

Organizational (Club) Membership

Club Practice Insurance Information & Forms

An important benefit USATF provides to its member organizations (clubs) is General Liability Insurance coverage. Liability insurance provides coverage for certain types of lawsuits brought against the club, its officers and coaches.

This coverage is extended to the regularly scheduled practices of member organizations (clubs) provided such practices are filed with USATF in advance and are supervised by a bona fide coach. Bona fide coaches are defined as those coaches who have completed the *Coaches Registration* form and are current members of USATF.

It is important to realize that this is not sport accident insurance. Injuries to athletes (who are members of USATF) during practices are covered under our sport accident policy.

In order for your club to be covered by the USATF General Liability insurance coverage you must submit a *Club Practice Schedule* and a *Coaches Registration* form (for each coach that will be supervising practices). Both of these forms are attached. **Failure to complete all forms in their entirety may nullify your insurance coverage.**

Club Practice Schedule: The attached *Club Practice Schedule* must be completed. **This schedule must list specific dates and times of all practices to be covered.** It must also include the location of the practice, such as the school where the track is located. Practices must take place in a closed facility, where there is no vehicular traffic. There is no additional fee to register club practices; however there is a \$15.00 fee for **each** request for third party coverage. A separate request must be submitted for each additional third party.

Coaches Registration Form & USATF Membership: A *Coaches Registration* form must be on file with the National Headquarters for **each** coach who will be in a supervisory position during any practice session. Additionally, all coaches are required to have a current USATF membership to be covered by insurance. In summary, the USATF General Liability Insurance policy will cover only those coaches with a current USATF membership and a *Coaches Registration* form on file.

The forms listed above should be submitted to your local Association with your Organizational Membership Application.

Please keep copies of all forms for your record

Club Practice Insurance Information

An important benefit USATF provides to its member organizations (clubs) is General Liability Insurance coverage. Liability insurance provides coverage for certain types of lawsuits brought against the club, its officers and coaches.

This coverage is extended to the regularly scheduled practices of member organizations (clubs) provided such practices are filed with USATF in advance and are supervised by a bona fide coach. Bona fide coaches are defined as those coaches who have completed the *Coaches Registration* form and are current members of USATF.

It is important to realize that this is not sport accident insurance. Injuries to athletes (who are members of USATF) during practices are covered under our sport accident policy. We encourage all of your participants (club members) to be members of USATF for this reason.

What is covered?

Club practice insurance pertains to regularly scheduled, organized, supervised club practices that have filed a *Club Practice Schedule*. Generally, practice sites are limited to track facilities and ancillary fields and do not include ill-defined sites such as open parks and streets where it is not possible to thoroughly supervise the athletes. The practice is covered from beginning to end; however, non-track & field-related activities at a club practice are never covered.

Who is covered?

The club practice insurance extends to all club personnel - coaches, administrators, and volunteers - so long as they have filed a *Coaches Registration* form and are current members of USATF. This is liability insurance so the covered individuals are insured if any third party (including people not affiliated with the club) brings a claim against the covered individuals.

How does a club obtain coverage?

For each practice facility, the club files the *Club Practice Schedule*, which lists the location, dates, and times of all scheduled practices at that facility. In addition, the club provides a *Coaches Registration* form for all coaches and volunteers who will be supervising the practices. *Club Practice Schedules* must be filed with the National Headquarters prior to practices taking place. Coverage will not be provided after the fact.

Is there a fee for this insurance coverage?

No, there is no fee for the insurance coverage – it is a club benefit. By submitting the necessary forms your club, coaches and volunteers will automatically be covered.

What if a facility (third party) needs to have a Certificate of Insurance?

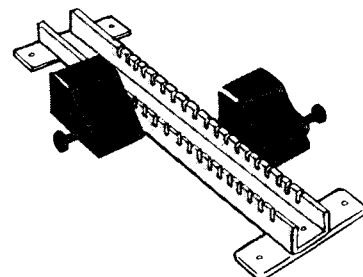

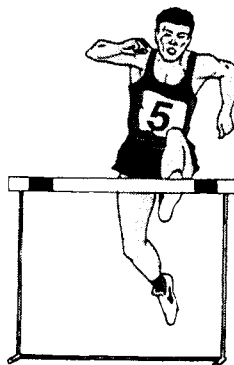

On the *Club Practice Schedule* there is a section where your club can request a certificate for third party coverage. There is a \$15 charge for each certificate that is requested. Third parties generally receive the insurance certificate within 7-10 days once the request is received at the National Headquarters.

Does this coverage include clinics and camps?

No, it only extends to practice and training sessions.

What if a club changes its practice facility, schedule, or coaches?

The club may fax or mail a new or revised *Club Practice Schedule* or *Coaches Registration* form directly to the National Headquarters. The National Headquarters will verify that the club is a current member. If a new third party is requesting to be named on the insurance policy then the \$15 fee must accompany the new practice schedule.

Coaches Registration Form

Make copies as needed

Coach's Information

Club Name _____

Association _____ Club # _____ Today's Date _____

Coach's Name _____

Current USATF Membership # _____

(required to be named on the liability insurance policy)

Join online at www.usatf.org or through your local Association office
